TINSEL

THE DIPPER

user guide

Thank you for your purchase and supporting Tinsel. We're on a mission to produce high-quality electronics designed with women in mind.

All too often, women are offered the pink version of a clunky gadget that's designed with a unisex approach...at best. But we deserve better. The Dipper is the beginning of a movement.

It's a beautiful necklace with headphones built into it. Say "goodbye" to that wad of wires at the bottom of your bag, and "hello" to top-notch interference-free sound. Just plug it in, hit play, and listen in style.

To you ladies out there who love fashion, accessories, and your smartphones: Tinsel is creating a something special for YOU. Something you want to wear because it's stylish, beautiful, and to top it off, serves a functional purpose.

Love EVERYTHING you wear.
